A well planted, well kept place appeals to the passerby. People do estimate you and your property by the appearance of your place. A well planted place has a much higher market value.

There is a nation-wide movement right now for more beautiful home surroundings. The value of it is recognized now as never before. Those who begin to improve their property first will realize the most benefit.

A few dollars spent now for trees, shrubs and plants will double in value with each year and bring with it enjoyment, satisfaction and pride as well as profit to the owner.

Your Success is the Basis of Ours. Let us help you with your planting problems. Our catalog and landscape suggestions are sent on request only.
